App Version - 2.1.1 Device Model - iPhone 13 mini Operating System - 15.6.1	At the beginning of the game there is condition that we can see while selling the product in the shop or trying to hire someone from the street: "Need Level 5". But in level 3 you CAN hire stuff to the shop.
App Version - 2.1.1 Device Model - iPhone 13 mini Operating System - 15.6.1	There are two scenarios: one - when you download the game at first time, second - when you click to 'Reset progress'. The diference between two scenarios is that in first you cant hire stuff to your shop until level 5 and there is no mention of it in tutorial, and in second you recieve instructions how you can hire and link him to your shop at the beginning of your tutorial.
App Version - 2.1.1 Device Model - iPhone 13 mini Operating System - 15.6.1	In level 5 there is possibility to buy warehouse to keep more product and assign different buildings for supplying. After you have intuitively learned how to use this tool there is inconsistent tutorial.
App Version - 2.1.1 Device Model - iPhone 13 mini Operating System - 15.6.1	There is no notifications on your phone regarding how is the business going on in a game after you acepted to have it. (The settings of the phone have checked)
App Version - 2.1.1 Device Model - iPhone 13 mini Operating System - 15.6.1	No trash bin hints as it mention in the history of versions.
App Version - 2.1.1 Device Model - iPhone 13 mini Operating System - 15.6.1	There is successful selling of the product after the green indicator of the time has passed in panel of manual trading meanwhile if you do not open the panel and let the time expire, the result will be no purchase.
App Version - 2.1.1 Device Model - iPhone 13 mini Operating System - 15.6.1	After clicking the button to restore purchases the game hangs. There is still music and it sounds like some game functions are still in live but you cant close the settings menu or quit the game. Tried different times.
App Version - 2.1.1 Device Model - iPhone 13 mini Operating System - 15.6.1
